I am a results-driven IT Specialist Developer with a passion for solving complex challenges through technology. I value continuous learning, collaboration, and delivering high-quality solutions that optimize processes and enhance efficiency. Delve in the software development field to create impactful, scalable solutions.

Work Experiences

Indomaret Group

Jul 2024 - Present

Head of IT Developer

- Worked with 6+ IT departments to develop an application that effectively addresses business challenges.
- Dockerized 5+ applications and services, ensuring seamless builds and deployment across multiple servers, reducing deployment time by 50% and minimizing errors.
- Reduced Docker image sizes by 60%, significantly improving deployment speed and resource efficiency.
- Implemented CI/CD pipelines using GitHub Actions, cutting deployment time and automating 100% of the repetitive deployment processes.
- Co-worked and lead 5 people across developers and QA to create seamless development iteration, resulting in 30% more speed in the process.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Feb 2024 - Dec 2024

Machine Learning Mentor and Instructor

- Led and mentored 25 cohorts, providing weekly sessions, one-on-one consultations, and study group sessions, receiving a 4.9/5 feedback score for overall sessions (mentor) and 5/5 feedback score for 6 consultation with different teams.
- Providing tech materials related to machine learning on consultation sessions such as data scraping, modelling, deployment and monitoring, helping them on the development of the capstone project.
- Engaged daily in regular discussions and collaborations with instructors, mentors, and cohorts, fostering a rich and collaborative and safe learning environment.

Apple Developer Academy @ UC

Apr 2024 - Jun 2024

Cohort Internship (Apple Foundation Program)

- Consist phases from engage, investigation, and act based on the CBL framework to form a firm ideation and solve real world problems.
- Brainstorm collaboration using various frameworks such as modified challenge based learning, exploratory cycle, and crazy8s with teammates from different backgrounds.
- Pitch, prototype, and test the proposed app solution with Figma and Xcode to mentors and stakeholders within 1 month of work.

Freelance (Fastwork)

Sep 2023 - Aug 2024

Data Scraper / ML Engineer / Web Developer

- Delivered 10000+ scraped data in CSV, images, and in any format requested by the client from various resources (instagram, ecommerce, google search, etc.), achieving 5/5 rating from different clients with diverse background cases.
- Maintaining the quality of the services and products, in result of 2+ back-to-back projects from the same clients with different cases.

Education Level

Universitas Sanata Dharma - Yogyakarta

Aug 2020 - Jan 2024

Bachelor of in Informatics, 3.98/4.00

- Dean's List, Best Graduate of Informatics Student
- Thesis: Transfer Learning Approaches for Javanese Handwritten Character Recognition
- Assistant Lecturer for 3 years in Data Structures and Algorithm, Data Analysis, and Machine Learning
- Volunteered in faculty's annual event of 2023, gaining surplus and memorable experiences for the participants
- 2nd place in competition of Program Kreativitas Mahasiswa, "Stories for Gen Z, Preventing FOMO"

Skills, Achievements & Other Experience

- **Projects** (2024): RoemahKenari (Fullstack): Creating Web-based managing system to track customer and utilities in the company
- **Achievements** 🏆 (2023): Distinction Graduate Bangkit Academy 2023 H1: Top 10% of the graduate students
- **Projects** 🏆 (2023): BDC Satria Data Competition: Building a multi level modeling (YOLOv8, CTC, Customized CNN) and implement majority voting to implement Automatic Number Plate Recognition, ranked in top 20%
- **Certification** 🏆 (2023): TensorFlow Developer Certificate: proficiency in Computer Vision, Time Series, and NLP
